It is good to protect oneself against such a situation. This situation often occurs and there is no need to download special software then.. Whereas, for the computer, the entire structure of the file changes How to perform a conversion?Conversions may have a different level of difficulty of their performance - from simple ones, such as changing the character encoding in the text file to complex and complicated such as converting audio files or graphics (in the case of the MP4 and BIK files we are dealing with a more complex conversion).. File formats MP4 and BIK are similar and we can convert from the format MP4 to BIK.. Data conversion is changing the way of presentation of data to the computer (for the user the visible change is a different ending of the file BIK instead of MP4, or the possibility to open a file in another application than before, while the content itself remains relatively similar).
